---

### SUMMARY

I am a software engineer with a background in sales, and I bring my passion for a clean and organized work product into each project. I love nothing more than working as a team to build the most efficient and elegant solutions to complex client problems in Front End Development or MERN Full Stack applications.

---

### SKILLS

Javascript | React JS | CSS | HTML | Git | NodeJS | Material-ui | MongoDB | PostgreSQL | JQuery | SASS

### PROJECTS

#### API-Go

[GitHub Link](#)

[Live App Link](#)

- Dev package designed to greatly ease the use of 3rd party APIs. It dynamically creates pages for you with example fetches and query endpoints. Made utilizing React, NodeJS, and Inquirer

#### Medieval Mayhem

[GitHub Link](#)

[Live App Link](#)

- Fully responsive 2D Fighting game with RPG elements. It's a 100% original game created utilizing Javascript, jQuery, CSS, HTML, Git, Photoshop, Illustrator, and BrashMonkey Spriter.

#### My Store

[GitHub Link](#)

[Live App Link](#)

- Store created in React with a NodeJS backend, and utilizing Bulma for styling. 100% responsive and stripe incorporated for payment.

#### Chatter Online

[GitHub Link](#)

[Live App Link](#)

- Socket.io driven live chat rooms, plus a full CRUD forum for this AOL tribute page built on the MERN Stack. All designed to recreate the look and feel of 1990's AOL

### EXPERIENCE

#### Software Engineering Apprentice, General Assembly, Remote

2020-2021

- Focused on product development fundamentals, object-oriented programming, MVC frameworks, data modeling, and team collaboration developing projects through separate branches on Github and deployed them through Heroku
- Used React, CSS, Javascript, Material-UI, HTML, TypeScript, Babel and Webpack for front end, with NodeJS, Express, PostgreSQL, MongoDB, and Ruby on Rails for back-end development

#### Server/Bartender, Red Robin, Pleasanton, CA

2015-2020

- Prioritized dozens of simultaneous responsibilities while maintaining strong attention to detail

#### Co-founder, LimeLight Theaters, Scottsdale, AZ

2009 -2015

- Created software in Flash used to design the layouts for the home theaters while on location
- Designed the website and accompanying advertising for affiliate sites in Javascript, HTML and CSS

### EDUCATION

#### Full Stack Software Engineering Certificate, General Assembly

#### Coursework in Justice Administration, San Jose State University
