KEVIN MATHEWS

FULL STACK ENGINEER

925-243-5730 | [kevmathews.com]( ) | [linkedin.com/in/kevmathews]( ) | [kevinmathews.cs@gmail.com]( )

SUMMARY

I am a web developer with a background in sales, and I bring my passion for a clean and organized work product into each project. I love nothing more than working as a team to build the most efficient and elegant solutions to complex client problems in Front-End Development or full MERN stack applications.

SKILLS

Javascript | React JS | CSS | HTML | Git | NodeJS | Express | MongoDB | SQL | JQuery | SASS
TypeScript | BootStrap | Photoshop | Illustrator | After Effects | Postgre | Babel | Socket.IO | Inquirer

PROJECTS

API-Go   [GitHub Link]( )   [Live App Link]( )
- Dev package designed to greatly ease the use of 3rd party APIs. It dynamically creates pages for you with example fetches and query endpoints. Made utilizing Inquirer, React, and NodeJS

Medieval Mayhem   [GitHub Link]( )   [Live App Link]( )
- 2D Fighting game with RPG elements. Original game created utilizing Javascript, jQuery, CSS, HTML, Git, Photoshop, Illustrator, and BrashMonkey Spriter

Chatter Online   [GitHub Link]( )   [Live App Link]( )
- Socket.io driven live chat rooms, plus a full CRUD forum for this AOL tribute page built on the MERN Stack. All built in an environment designed to recreate the look and feel of 1990's AOL

EXPERIENCE

Software Engineering Fellow, General Assembly, Remote   2020-2021
- Focused on product development fundamentals, object-oriented programming, MVC frameworks, data modeling, and team collaboration developing projects through separate branches on Github and deployed them through Heroku
- Used HTML, CSS, Javascript, JQuery and React, TypeScript and SASS for front end development, with NodeJS, Express, PostgreSQL, MongoDB, and Ruby on Rails for back-end development
- Worked with Adobe PhotoShop, Illustrator, and After Effects to design logos and banners.

Server/Bartender, Red Robin, Pleasanton, CA   2015-2020
- Prioritized dozens of simultaneous responsibilities while maintaining strong attention to detail

Co-founder, LimeLight Theaters**,** Scottsdale, AZ   2009 -2015
- Created the software in Flash to design the layouts for the home theaters while on location.
- Forged new connections and partnerships while representing the company at various trade shows and conventions across the country

EDUCATION

Software Engineering Certificate, General Assembly
Coursework in Justice Administration, San Jose State University
